This LED button is included in article no. 21-19x6-5

## FEATURES & BENEFITS

- All LED lights are equipped with a premounted transformer (230V AC / 12V AC). The transformer is extremely compact (H=29 mm L=32.5 mm W=27.3 mm) and can be easily inserted through the drilled hole, from the front of the tub. This will save time in your production
- All LED lights can be equipped on most existing control panels via a 230V light outlet
- All Slimlite Ø52 mm LED lights have 18 diodes and a front diameter of 52 mm
- All Slimlite Ø83 mm LED lights have 51 diodes and a front diameter of 83 mm
- All LED lights have an expected life time of 50.000 hours
- All LED lights are manufactured to have min. protection class IPX5 from the back and IPX8 from the front
- All LED lights are supplied with front and rear seals
- All LED lights have almost no heat emission and require no water cooling
